About Your Institution's Persistence and Retention Report

The purpose of this report is to provide you with a view of student retention and persistence rates for your institution. This report is exclusively for your institution's use. The Clearinghouse will not publish or distribute your institution's results.

Data Source

The data for this report were drawn from the Clearinghouse's national coverage of enrollment and awarded education credentials to explore the year-to-year persistence and retention rates of cohorts of first-time-in-college students who started in the fall terms of 2013-2016.

The student outcomes captured in this report are based on student-level data representing an unduplicated headcount of students across all institutions, a feature of the Clearinghouse data sets that distinguishes them from many other data sources, including the Integrated Postsecondary Education Data System (IPEDS), that may not accurately capture the complexity of postsecondary pathways because they are not structured to identify multiple enrollments by individual students. The capability of StudentTracker to link enrollment records across institutions nationally allows researchers to follow students longitudinally as they move from institution to institution, producing a fuller picture of college persistence and completion.

The Definitions and Methodology section at the end addresses cohort selection and terminology. Additional questions or feedback can be sent to nscresearch@studentclearinghouse.org.
